Indications essentielles

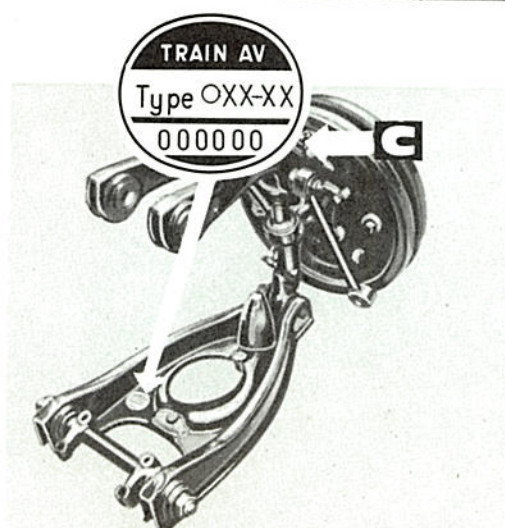

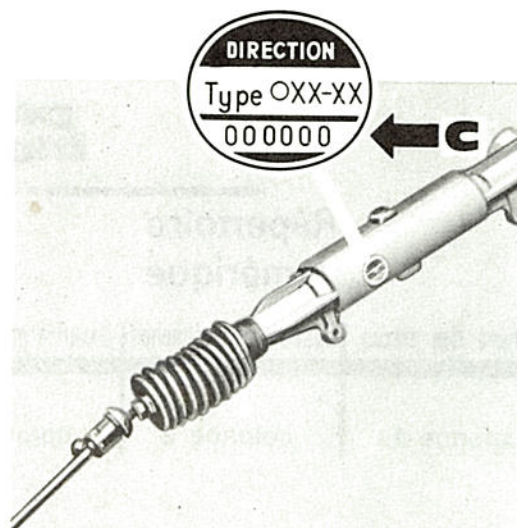

Pour obtenir une fourniture correcte de pièces de rechange

sur le véhicule

- A** Le type du véhicule
- B** Le numéro de fabrication du véhicule
- C** Le numéro de fabrication de l'organe dont fait partie la pièce commandée

dans le catalogue

- Le numéro de la pièce
- La quantité désirée

NOTA

- 1° Pour simplifier les vérifications, il serait souhaitable d'indiquer également dans les commandes :
 - le numéro du catalogue,
 - le numéro de la planche illustrée.

- 2° Si les numéros d'organes, ou de véhicule, sont détruits, indiquer le numéro de la plaque constructeur, rappelé sur la carte de garantie.

INTRODUCTION

Le présent document constitue le document de base qui permet la liaison entre l'utilisateur et les Centres distributeurs de pièces de rechange, Succursales et Concessionnaires. Il contient tous les ensembles et pièces détachées montés d'origine, reconnaissables à la marque et vendables en rechange ; il permet de les identifier facilement par les illustrations.

Ces ensembles et ces pièces sont répartis par **planche** suivant l'organe ou l'élément d'organe auquel ils se rattachent.

Chaque **planche** est affectée d'une **désignation technologique** et d'un **numéro** à

quatre chiffres dont les deux premiers correspondent à un code organe déterminé.

Une **PLANCHE** comprend l'**illustration** des pièces et ensembles affectés chacun d'un ou plusieurs **numéros**.

Un **répertoire des planches** en tête de celles-ci donne la correspondance entre leurs **numéros** et leurs **désignations technologiques**.

Un **répertoire numérique** en fin de catalogue donne la correspondance entre les numéros des pièces et les numéros de planches (sauf pour les numéros de boulonnerie normalisée : voir à ce sujet le document intitulé "Boulonnerie Normalisée", DC 521)

UTILISATION

Détermination du numéro d'une pièce
connaissant la nature de celle-ci :

1. Rechercher dans le **REPERTOIRE DES PLANCHES** la planche correspondant à l'organe ou l'élément d'organe auquel cette pièce peut se rattacher.
2. Compulser le catalogue pour y retrouver cette planche en tenant compte, s'il y a lieu, du numéro de fabrication du véhicule ou de l'organe intéressé.
3. La planche étant déterminée ; rechercher la pièce désirée, cette pièce peut être affectée d'un ou plusieurs numéros, choisir le numéro qui convient suivant la variante intéressée qui est repérée par un signe conventionnel. Ce numéro est celui que l'on doit inscrire sur le bon de commande pour obtenir la pièce désirée.

Identification par l'illustration
d'une pièce dont on connaît le numéro :

1. Rechercher dans le répertoire numérique, au numéro de pièce donné, le numéro des planches correspondantes.
2. Consulter ces planches.

RENSEIGNEMENTS GÉNÉRAUX

PIÈCES D'ORIGINE RENAULT

Nous tenons à avertir notre clientèle que l'on vend des imitations de nos pièces de rechange.

Ces pièces sont souvent exécutées avec des matières premières défectueuses ou ayant subi un mauvais traitement; de plus elles laissent à désirer comme usinage et interchangeabilité.

Afin de mettre en garde notre clientèle contre des contrefaçons, nous poinçons de notre nom ou de notre marque la plupart de nos pièces détachées, les autres portent une bande ou plomb de garantie de notre marque:

Nous prions donc nos clients d'exiger notre marque de fabrique sur les pièces qui leur seraient délivrées par des intermédiaires, afin d'éviter les mécomptes qui pourraient résulter de l'emploi de pièces détachées ne provenant pas de notre fabrication.

Le montage sur nos châssis de pièces, non d'origine, les ruptures ou déformations de ces pièces de qualité inférieure peuvent occasionner de graves détériorations à d'autres pièces de nos châssis et de notre fabrication; la garantie dont nous couvrons nos véhicules pendant six mois sera retirée à tout véhicule sur lequel des pièces montées par nous auront été remplacées par des pièces d'une autre origine.

Tous nos Agents ont pris, par contrat, l'engagement de ne vendre que des pièces d'origine et de porter sur les factures la mention: «Pièces de rechange garanties d'origine». Dans votre intérêt et pour votre sécurité, exigez cette indication sur les factures de pièces de rechange que vous achetez.

COMMANDES

Toute commande de pièces détachées doit être exclusivement adressée:

- soit à nos Directions régionales;
- soit à nos Centres parisiens;
- soit à l'une de nos Succursales;
- soit encore à l'un de nos Concessionnaires, ou à l'un des Agents de notre marque.

Paiement: Les prix facturés sont toujours ceux en vigueur au moment de la livraison.

N.B. — 1. Certaines pièces de tôlerie ne sont livrées que tant que l'état de l'outillage en permet la fabrication.

2. Dans le cas de commande de tissu ou simili, joindre un échantillon si possible. La longueur désirée doit être exprimée en décimètres. La fourniture conforme n'est assurée que selon les possibilités d'approvisionnement. Dans certains cas, les usines de montage à l'étranger réalisent elles-mêmes l'habillage des véhicules. Elles proposent alors un choix différent de garnitures.

RENSEIGNEMENTS A L'USAGE DE NOS SUCCURSALES CONCESSIONNAIRES ET AGENTS

Retour des pièces non conformes ou envois de pièces modèles.

Les retours et envois de cette nature devront toujours être faits franco de port:

AU MAGASIN DE PIÈCES
DE RECHANGE DE LA R.N.U.R.
QUI A DELIVRÉ LA PIÈCE.

Le colis doit porter sur l'étiquette extérieure, le nom et l'adresse de l'expéditeur. Une étiquette attachée à chaque pièce

doit répéter le nom et l'adresse de l'expéditeur et rappeler le numéro et le type du châssis correspondant, la désignation de la pièce et les numéro et date de facture de l'usine relative à la fourniture de ces pièces. Mettre également dans le colis le bon de livraison qui était joint à la pièce reçue de l'usine.

Tout envoi doit faire l'objet d'une lettre explicative indiquant d'une façon détaillée les motifs du retour.

CONTESTATION

En cas de contestation, le Tribunal de la Seine sera seul compétent, de convention expresse, même en cas de demande incidente ou en garantie. Nos dispositions,

acceptations de règlement ou expéditions n'opèrent ni novation, ni dérogation à cette clause attributive de juridiction.

Location of vehicle and unit numbers

Essential information

To get the correct supply of spares.

On the vehicle

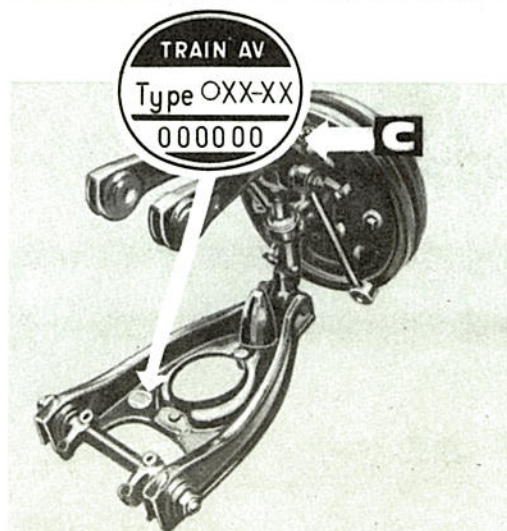

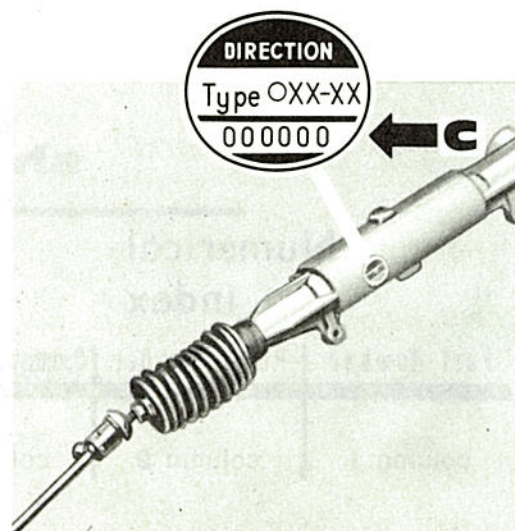

- A** Vehicle type
- B** Vehicle manufacturing number
- C** Manufacturing number of unit to which the part ordered belongs.

In the catalogue

- The part number
- The quantity required

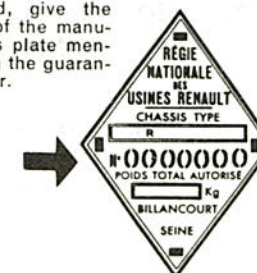

GENUINE SPARE PARTS

NOTE

- 1° In order to facilitate checking, it is recommended to mention also on orders:
 - the catalogue number,
 - the illustration plate number.

- 2° If the unit or the vehicle numbers are destroyed, give the number of the manufacturer's plate mentioned on the guarantee folder.

FOREWORD

This catalogue is the basic document which acts as a link between its users and the Spare Parts Distribution Centers, Branches and Distributors. It includes all the assemblies and spare parts originally fitted, which are identified by the stamp and to be sold as spares; the book enables to easily identify these parts from the illustrations.

These assemblies and parts are distributed by plate, dependent upon the unit or unit component which they are connected to.

Each plate includes a technological description

and a four digit number, the two first ones corresponding to a determined code.

A PLATE includes the illustration of the parts and assemblies bearing each one or several numbers.

A PLATE INDEX, in front of the plates, shows the correspondence between the part numbers and their technological descriptions.

A numerical index, at the end of the catalogue, links part numbers to plate numbers (the numbers of standardized bolts and nuts excepted).

HOW TO USE THIS BOOK

Finding the right number of a part, knowing the nature of this part :

1. Look in the PLATE INDEX for the plate corresponding to the unit or unit component which this part may be connected to.
2. Go through the catalogue to find out the said plate, paying attention, if necessary, to the manufacturing number of the vehicle or of the unit concerned.
3. The plate being found ; look for the desired part; this part may be followed by one or several numbers; select, according to the offered alternative, the suitable number which is marked with a code symbol. This is the number you should indicate on the order form to get the desired part.

Identifying a part from the illustration, knowing the part number :

1. Look in the numerical index at the given part number for the corresponding plate numbers.
2. Go through these plates.

GENERAL INFORMATION

GENUINE RENAULT PARTS

We would like to caution our customers against the fact that our spare parts are copied.

These copies are often made from defective materials or, having been subjected to the wrong heat treatment, they are below the mark as regards machining and interchangeability.

In order to protect our customers against imitations of this kind, we stamp most of our spare parts with our name or with our trade-mark, the other parts bear a label or a lead seal of guarantee with our mark.

Our customers are therefore kindly requested to look for our trade-mark on the parts delivered by intermediaries in order to avoid such troubles as may result from the use of parts not of our manufacture.

The assembling onto our chassis of non-genuine parts, the failure or distortions of these parts of a lower quality may result in severe damage to other parts of our chassis and of our manufacture; the guarantee which we extend to our vehicles for six months will become void where a vehicle is concerned wherefrom the parts assembled by us have been replaced by parts of some other source.

All our Dealers have undertaken, through their contract, to sell genuine parts only and to show on invoices the mention: "Genuine Renault Parts". For your benefit and for your own safety, you should look for this mention on the invoices for spare parts.

ORDERS

Any order for spare parts should be forwarded exclusively:

- either to our Divisional Managements;
- or to our Centres in Paris;
- or to one of our Branches;
- or, again, to one of our DISTRIBUTORS or Dealers.

Payments: the prices invoiced are always those in force at the time of delivery.

Note. — 1. Some sheet metal parts are only delivered so long as the position of the equipment enables their manufacturing.

2. If you have to order fabrics or artificial leather, please enclose a sample if possible. The required length should be given in decimetres. A true to sample delivery is only ensured according to the stock available. In some cases, the assembly plants abroad make the trimming of the vehicles themselves. They offer then a different choice of trimmings.

INFORMATION INTENDED FOR OUR BRANCHES, DISTRIBUTORS AND DEALERS

Returning of parts not as required or forwarding of sample parts.

Any return or forwarding of this nature should always be made carriage paid:

TO THE R.N.U.R. SPARE
PARTS DEPARTMENT
WHICH SUPPLIED THE PART.

The parcel should show on the outside label the name and address of sender. A label attached to each part should again

mention the name and address of sender and should quote the number and the type of the corresponding chassis, the designation of the part and the number and date of invoice from the Works related to the supply of these parts. Also enclose in parcel the delivery voucher which was enclosed with the part as received from the Works.

Any forwarding should be covered by an explanatory letter indicating all the reasons for the returning of the parts.

SETTLEMENT OF DIFFERENCES

It is expressly agreed that the "Tribunal de la Seine" shall be the only competent in case of legal differences even in case of incidental claim or guarantee claim.

Our disposals, acceptances of payments or shipments are not to be construed as a substitution to or derogation of this attributive clause of jurisdiction.

Location of vehicle and component fabrication numbers

Essential information

To obtain the right part.

On the car

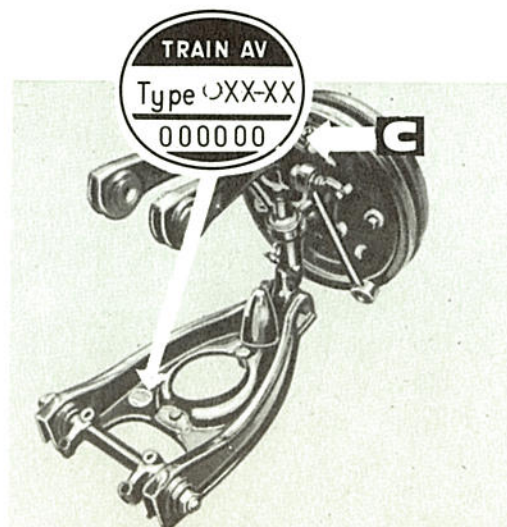

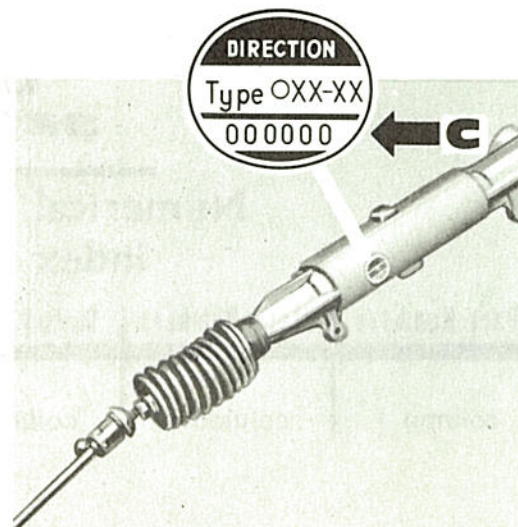

- A** Vehicle type number
- B** Vehicle fabrication number
- C** Fabrication number of the unit to which the ordered part is related.

In the catalogue

- Part number
- Quantity ordered

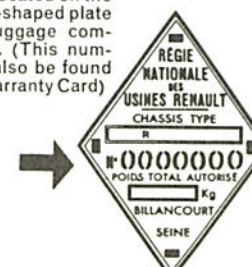

GENUINE SPARE PARTS

NOTE

- 1° To simplify the handling of the order, it is advisable to show on the order form:
 - catalogue number
 - illustration plate number.
- 2° If the vehicle or component numbers are not legible or are lost, indicate the car serial number located on the diamond-shaped plate in the luggage compartment. (This number can also be found on the Warranty Card)

FOREWORD

This is the basic parts book which is used as reference by the Central Parts Depot and the distributors and dealers for their transactions. It lists all the units and component parts installed in production. They are identified by the stamp and they are for sale as spare parts. Their illustration makes their identification easy.

Units and component parts will be found in various **plates**, depending upon the assembly, or assembly component, to which they belong.

Each **plate** includes a **technological description** and a fourdigit **number**. The first two digits

correspond to a definite assembly code.

A plate gives the **illustration** of a group of parts and units with their respective **numbers**.

A **PLATE INDEX**, before the plates, gives next to the **plate number** the corresponding **technological description**.

A **numerical index**, at the end of the book, gives next to the part number the number of the **PLATE** where the part appears (standard nuts and bolts excepted).

DIRECTIONS

Finding the number of a known part :

1. Look up in the PLATE INDEX the plate where appears the assembly, or assembly component, to which the part belongs.
2. Look through the book to find the plate, taking into account, if necessary, the vehicle number, or the number of the assembly.
3. When you have found the right plate : look for the part. It may have one or more numbers. If more than one, use the code symbols which are listed below and indicate particular cases to determine which one is the proper number. This is the number which must be mentioned on the form to obtain the right part.

Identifying a part through its illustration

when its number is known :

1. Look in the numerical index for the part number, and read next to it the number of the plate where the part appears.
2. Refer to the plate.

GENERAL INFORMATION

GENUINE RENAULT PARTS

It is necessary to caution our customers against imitations of our spare parts which are sold as replacements.

These spurious parts are often made of defective or poorly heat treated materials. Furthermore, their machining and interchangeability are not satisfactory.

In order to alert our customers against such spurious parts we stamp most of our spare parts with our name or with our trade-mark. The rest of the parts bears a guarantee tag or seal with our trade-mark.

To avoid such troubles as may result from the use of parts which we do not manufacture, we urgently recommend that our customers insist upon being supplied with spare parts bearing our trade-mark or, in special cases, with factory approved spare parts of a different make.

Serious damage to the part manufactured and installed by our factory may result from the installation on our vehicles of spurious parts which are likely to break or to lose their shape. The six month guarantee which covers our vehicles will be cancelled in any case where parts installed by our factory have been replaced with parts other than genuine Renault parts or, in special cases, factory approved spare parts of a different make.

All our dealers have agreed, in a franchise agreement, to sell only genuine parts or, in special cases, factory approved spare parts of a different make.

ORDERS

All orders for spare parts must be addressed, without any exception :

- by the private customer to the dealer, or to the distributor if the dealer is not able to supply the part ordered;

— by the dealer to the distributor;

— by the distributor to the Central Parts Depot.

INFORMATION GIVEN ON ORDER FORMS

Even though the printed order forms may vary the following information should always be included :

If the PART NUMBER is known :

- The part number;
- The type of vehicle;
- The description of the part;
- The quantity ordered.

If you are in doubt about the part number :

- The type of vehicle;
- The serial number (diamond shaped plate);
- The fabrication number (oval plate);

- The type and the number of the unit to which the ordered part belongs;
- The assumed part number, with an « X » written in front of it;
- The description of the part;
- The quantity ordered.

Note : 2. Whenever possible attach to your order a sample of fabrics or leatherette. Materials identical to the samples will be supplied as long as the supply lasts.

Payments : The prices charged are always those which are effective at the time of delivery.

PROCEDURE TO RETURN PARTS

which are not as ordered.

Parts will be returned :

- by the private customer to the dealer or distributor from whom they were purchased;
- by the dealer to the distributor;
- by the distributor to the Central Parts Depot.

A LETTER asking for AUTHORIZATION to return a part shall be sent to the Central Parts Depot by the DISTRIBUTOR BEFORE RETURNING the part. The part shall be sent upon receiving the authorization to return it.

The letter must give the following details :

- Reason for returning the part.
- Name and address of the sender.
- Part number and description.
- Quantity returned.
- Our packing slip number.
- Our invoice number.

The same information will be written on the packing slip enclosed in the return package.

Wichtige Angaben

um eine korrekte Lieferung von Ersatzteilen zu erhalten.

am Fahrzeug

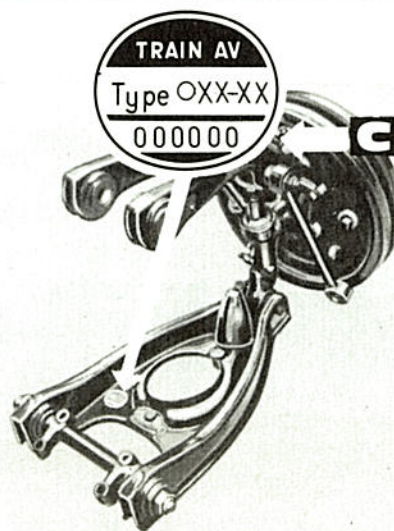

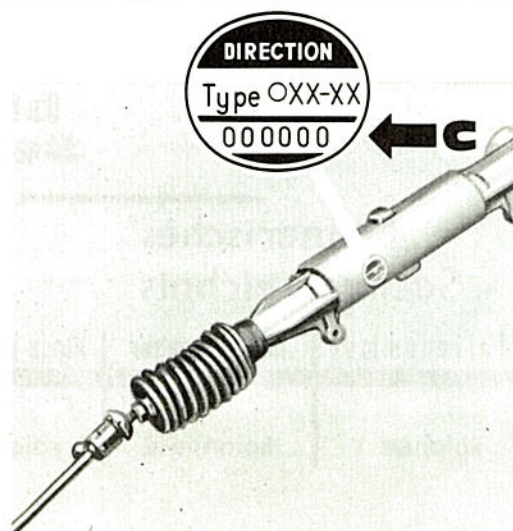

- A** Der Typ des Fahrzeuges
- B** Die Fabrikationsnummer des Fahrzeuges
- C** Die Fabrikationsnummer des Organes, zu dem das bestellte Teil gehört.

im Katalog

- Die Nummer des Teiles
- Die gewünschte Menge

ORIGINAL ERSATZTEILE

ANMERKUNG

1. Es wäre wünschenswert, um die Prüfungen zu vereinfachen, auf der Bestellung ebenfalls anzugeben :
— die Nummer des Katalogs,
— die Nummer der Bildtafel.
2. Sind die Fahrzeug- oder Organnummern unleserlich, dann die Nummer der Konstrukteur-Plakette angeben; sie ist in der Garantiekarte wiederholt.

VORWORT

Die vorliegende Ausgabe bildet die Grundlage, welche die Verbindung zwischen ihren Benutzern und den Ersatzteile-Ausgabestellen, Filialen und Konzessionären ermöglicht. Sie enthält alle montierten Original-Aggregate und -Einzelteile, erkenntlich an der Marke und die als Ersatzteile verkäuflich sind. Sie ermöglicht Teile vermittels der Abbildungen zu identifizieren.

Diese Aggregate und Teile sind in Bildtafeln aufgeteilt und zwar je nach dem Organ oder Organteil zu dem sie gehören.

Jede Bildtafel ist mit einer **technologischen Bezeichnung** und einer vierstelligen Nummer

versehen, deren zwei ersten Ziffern einem bestimmten Organ-Schlüssel entsprechen.

Eine BILDTAFEL enthält die **Abbildung** der Teile und Aggregate, von denen jedes mit einer oder mehreren Nummern versehen ist.

Ein **Bildtafel-Verzeichnis** (vor den Bildtafeln) gibt die Übereinstimmung zwischen den **Nummern** und den **technologischen Bezeichnungen** an.

Ein **numerisches Sachverzeichnis** am Ende des Katalogs gibt die Übereinstimmung zwischen den Teilenummern und den Bildnummern an (ausser für die Nummern der genormten Schraubenwaren).

GEBRAUCHSANWEISUNG

Bestimmung der Nummer eines Teiles,
dessen Beschaffenheit bekannt ist :

1. Im BILDTAFEL-VERZEICHNIS die Bildtafel aufsuchen, die dem Organ oder Organteil entspricht, zu dem das Teil gehören kann.
2. Im Katalog nachschlagen, um diese Bildtafel zu finden, wobei man nötigenfalls die Fabrikationsnummer des Fahrzeugs oder des betreffenden Organes berücksichtigt.
3. Die Bildtafel ist nun bekannt : das gewünschte Teil aufsuchen, dieses Teil kann mit einer oder mehreren Nummern versehen sein, je nach der Lesart, die mit einem Merkzeichen versehen ist, die richtige Nummer wählen. Diese Nummer muss man auf den Bestellschein eintragen, um das gewünschte Teil zu erhalten.

Identifizierung vermittels der Abbildung,
die Nummer des Teiles ist bekannt :

1. Mit Hilfe der Teile-Nummer die entsprechende Bild-Nummer im numerischen Sachverzeichnis aufsuchen.
2. Diese Bildtafel zu Rate ziehen.

ALLGEMEINE HINWEISE

RENAULT - ORIGINALTEILE

Wir weisen unsere Kundschaft daraufhin, dass auch Nachahmungen unserer Ersatzteile verkauft werden.

Diese Teile werden häufig aus schadhafte Rohstoffen hergestellt oder auch einer schlechten Behandlung unterzogen; ausserdem lassen sie bezüglich ihrer Bearbeitung und Austauschbarkeit zu wünschen übrig.

Um unsere Kundschaft vor solchen Nachahmungen zu warnen, wird unser Name oder unsere Marke, in die meisten unserer Ersatzteile eingeschlagen, während die anderen ein Band oder eine Garantieplombe unserer Marke tragen.

Wir bitten daher unsere Kunden, bei unseren Zwischenhändlern nur Teile, die mit unserer Fabrikmarke versehen sind zu verlangen, um sich vor allen Enttäuschungen zu schützen, die aus der Verwendung von Einzelteilen entstehen können, die nicht aus unserer eigenen Fabrikation herstammen.

Die Montage von Teilen fremder Herkunft auf unsere Fahrgestelle und die Brüche oder Formänderungen dieser Teile von geringwertiger Qualität können schwere Beschädigungen an anderen Teilen unserer Fahrgestelle oder unserer Fabrikation hervorrufen; die unsere Fahrzeuge während sechs Monate deckende Garantie wird daher jedem Fahrzeug entzogen, auf welchem die von uns montierten Teile durch solche von fremder Herkunft ersetzt worden sind.

Alle unsere Werksvertreter verpflichteten sich durch Vertrag, lediglich Originalteile zu verkaufen und auf den Rechnungen zu vermerken: « Garantierte Originalteile ». Fordern Sie daher in Ihrem Interesse und zu Ihrer Sicherheit diese Angabe auf den Rechnungen über die von Ihnen gekauften Ersatzteile.

BESTELLUNGEN

Jede Bestellung von Ersatzteilen muss ausschliesslich adressiert werden :

- entweder an unsere regionalen Geschäftsleitungen;
- oder an unsere Pariser Hauptstellen;
- oder an einen unserer Filialbetriebe;
- oder an einen unserer Konzessionäre oder Werksvertreter.

Zahlung : Die in Rechnung gestellten Preise sind stets jene, die am Lieferungstage gültig sind.

Anmerkung. — 1. Gewisse Blechteile sind nur dann lieferbar, wenn der Zustand des Werkzeugs die Herstellung ermöglicht.

2. Wir bitten Sie im Fall einer Bestellung von Tuch oder Kunstleder, wenn möglich, ein Muster beizulegen. Die gewünschte Länge soll in Dezimeter angegeben sein. Die gleichlautende Lieferung kann nur nach den Verproviantierungsmöglichkeiten erfolgen. In gewissen Fällen wird die Ausstattung der Fahrzeuge von den im Auslande befindlichen Montagewerken selbst vorgenommen. Sie bieten dann eine verschiedenartige Auswahl von Ausstattungen.

TEILE GELIEFERT WURDEN

Diese Post- oder Frachstücke müssen auf dem äusseren Etikett den Namen und die Adresse des Absenders tragen. Ein weiteres, an jedem Teil befestigtes Etikett wiederholt den Namen und die Adresse

des Absenders und trägt ebenfalls die Nummer und den Typ des entsprechenden Fahrgestelles, die Bezeichnung des Teiles, sowie Nummer und Datum der Fabrikrechnung, die die Lieferung dieser Teile betrifft. Der Sendung ist weiterhin der Lieferschein, der dem von der Fabrik erhaltenen Teil beilagt, beizufügen.

Für jede Sendung ist ein ausführliches Schreiben zu machen, in welchem man genau die Rücksendungsgründe darlegt.

RECHTSSTREITIGKEITEN

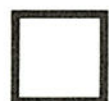

Im Falle einer gerichtlichen Auseinandersetzung gilt ausdrücklich vereinbart, dass allein « das Tribunal der Seine » zu ständig ist, selbst für Zwischenklagen oder Garantieansprüche. Unsere Bestimmun-

gen, Zahlungs- oder Lieferungsvereinbarungen bewirken weder eine Änderung noch eine Abweichung von dieser Zuständigkeitsklausel der Gerichtsbarkeit.

Reservedelskatalog for

R. 1092

Placeringen af numrene på vognen og aggregaterne

Vigtige oplysninger

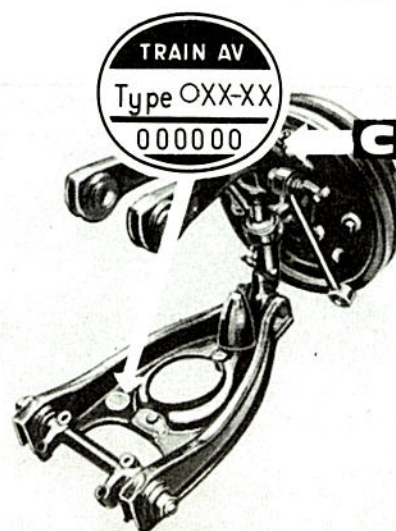

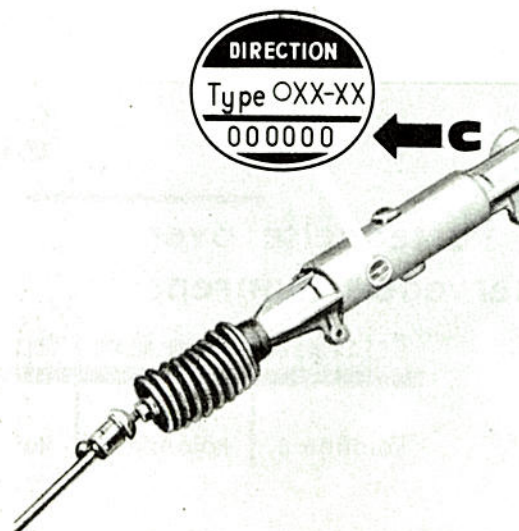

For at opnå en korrekt levering af reservedele

fra vognen

- A** Vogntypen
- B** Serienummeret
- C** Fabrikationsnummeret på det aggregat til hvilket den bestilte del skal anvendes

fra kataloget

- Delens nummer
- Det ønskede antal

BEMÆRKNING

1. For at forenkle ordrekontrollen vil det være ønskeligt at der ligeledes på ordren opgives :
— katalognummer.
— planchenummer.
2. Hvis aggregatnummeret eller serienummeret er ødelagt, opgiv nummeret på fabriktionspladen, også opgivet på garanti-kortet.

INDLEDNING

Nærværende katalog danner det grundlag, som muliggør forbindelsen mellem forbrugerne og reservedelsdepoterne, filialerne og forhandlerne. Det indeholder alle enheder samt monterede originale losdele, kendetegnet ved mærket som er salgbare til udskiftning; det er muligt med lethed at identificere delene ved hjælp af illustrationerne.

Disse samlede enheder og løsdele er fordelt på **plancher**, idet de er vist i forbindelse med vogn-delen eller enheden, hvorpå de skal monteres.

Hver **planche** er forsynet med en betegnelse og

et **nummer** på fire cifre, hvoraf de to første svarer til et kodetal på en bestemt vogndel.

En **PLANCHE** indeholder illustration af dele og enheder, hver forsynet med et eller flere **numre**.

Et **register over plancherne** findes foran disse og angiver deres betegnelser og **numre**.

Et **register over reservedelsnumrene** findes bag-
gest i kataloget og og henviser til planchenumrene
(med undtagelse af almindelige skruer, bolte og
møtrikker).

BRUGSANVISNING

Fastsættelse af nummeret på en del man kender :

1. Find i registeret over plancher den planche, som svarer til den vogndel eller enhed, på hvilken reservedelen er beregnet til at blive monteret.
2. Slå op i kataloget og find der den ønskede planche, om muligt vognens serienummer eller nummeret på den enhed, der har interesse.
3. Når planchen er fundet : find den ønskede del, denne del kan være forsynet med et eller flere numre, vælg nummeret som passer på den specielle del, der har interesse og som er mærket med et bestemt kendetegn. Dette nummer er det, som skal opgives på ordren for at opnå den ønskede del.

Fastsættelse ved hjælp af illustrationen af en del, hvis nummer man kender :

1. Find i registeret over reservedelsnumre nummeret på den planche, som reservedelsnummeret henviser til.
2. Slå op på planchen.

ALMINDELIGE OPLYSNINGER

ORIGINALE RENAULT DELE

Vi mener det rigtigt at underrette vore kunder om, at der sælges efterligninger af vore reservedele. Disse dele er ofte udført af mindre godt materiale, eller de er dårligt forarbejdede og lader derfor meget tilbage at ønske med hensyn til fabrikation og udskiftning.

For at advare vore kunder mod efterligninger præger vi størstedelen af vore løsdele med vort navn eller vort mærke, de øvrige dele er forsynet med en banderole eller garantiplombe med vort mærke.

Vi beder derfor vore kunder se efter vort fabrikmærke på de dele, som vil blive leveret Dem af forhandlerne, for at undgå misforståelser, opstået ved anvendelse af løsdele, som viser sig ikke at være fabrikeret af os.

Ved montage på vore chassiser af dele som ikke er originale, kan brud eller deformering af disse dele af ringe kvalitet forårsage alvorlige ødelæggelser på andre dele, som er fabrikeret af os; garantien med hvilken vi dækker vore vogne indtil 6 måneder vil blive trukket tilbage på enhver vogn, på hvilken dele monteret af os er blevet erstattet af dele af anden oprindelse.

Alle vore forhandlere er forpligtet ved kontrakt til kun at sælge originale dele og at påføre fakturaerne bemærkningen « garanteret originale reservedele ». I Deres interesse og for at sikre Dem, se efter, at denne bemærkning er anført på fakturaerne over reservedele, som De køber.

ORDRER

Alle ordrer på løsdele skal udelukkende adresseres :

- enten til vor Directions regionales;
- eller til Paris Centret.
- eller til vore filialer.
- eller til en af vore importører eller en forhandler for denne.

Betalingsbetingelserne : De fakturerede priser er altid de ved leveringen gældende.

Nota. — 1. Visse karosseridele leveres kun så længe værktøjets tilstand muliggør fabrikation.

2. Ved ordre på stof eller simililæder bedes prøve om muligt medsendt. Det ønskede mål bedes opgivet i decimeter. Levering kan kun ske i henhold til vore leveringsmuligheder. I nogle tilfælde udstyres vognene af vore samlefabriker i udlandet, i disse tilfælde er indtrækket anderledes end vort.

OPLYSNINGER TIL BRUG FOR VORE FILIALER OG IMPORTORER

Returning af dele som ikke passer og forsendelse af prøver

Returneringer og forsendelser af denne art skal altid ske franco til :

RESERVEDESLAGERET HOS R.N.U.R.
SOM HAR LEVERET DELEN

Colis'et skal være forsynet med mærkeseddel, hvor afsenderens navn og adresse

er anført. En mærkeseddel, som er vedhæftet hver enkelt del, skal ligeledes være forsynet med navn og adresse på afsenderen samt nummer og type på det dertil hørende chassis, delens betegnelse samt nummer og ligelides i colis'et følgesedlen, som er blevet modtaget med delen fra fabriken. Alle forsendelser skal være forsynet med et folgebrev, som på detaljeret måde angiver grundene til returneringen.

INDSIGELSER

I tilfælde af indsigelse er domstolen, le Tribunal de la Seine den eneste kompetente, selv i tilfælde af ubetydelige klager

eller garantispørgsmål. Denne klausul kan under ingen omstændigheder omgås.

Situación de los números del vehículo y de los órganos

Indicaciones esenciales

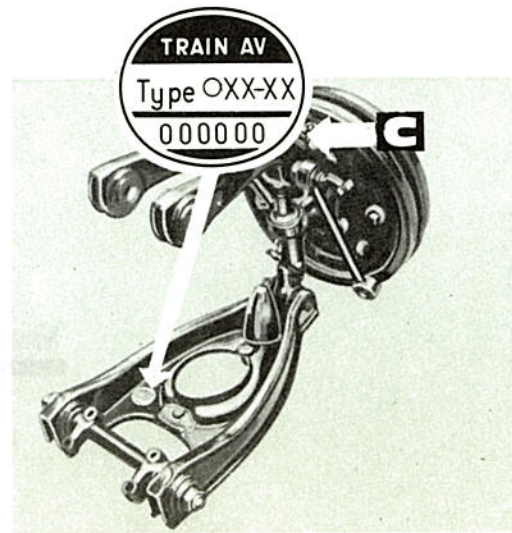

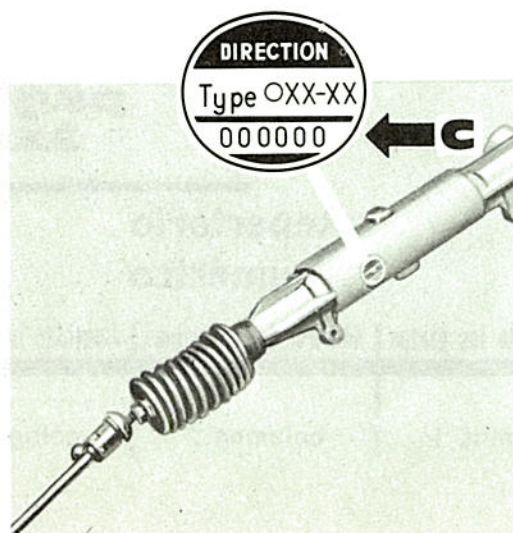

Para que podamos servir correctamente los pedidos de piezas de repuesto.

en el vehículo

- A** El tipo del vehículo
- B** El número de fabricación del vehículo
- C** El número de fabricación del órgano del que forma parte la pieza

en el catálogo

- El número de la pieza
- La cantidad deseada

NOTA

- 1º Para simplificar la comprobación, sería conveniente indicar también en los pedidos :
 - el número del catálogo,
 - el número de la lamina ilustrada.
- 2º Si han desaparecido los números del órgano o del vehículo, indicar el número de la placa de constructor, que se repite en el Certificado de Garantía.

INTRODUCCION

Este documento constituye la base de enlace entre sus usuarios y los centros distribuidores de piezas de repuesto, Sucursales y Concesionarios. Contiene la lista de conjuntos y piezas sueltas de origen, caracterizados por la marca y que se venden como repuestos; por medio de las ilustraciones, se les puede identificar con toda facilidad.

Estos conjuntos y piezas van repartidos por láminas, según el órgano o el elemento de órgano al que pertenecen.

La láminas llevan su designación tecnológica y un número de cuatro cifras, cuyos dos primeros

guarismos corresponden a la notación codificada del órgano.

Cada LAMINA consta de la ilustración de las piezas y de los conjuntos, que llevan cada uno o varios números.

La lista de láminas, situada al principio de las mismas, indica la correspondencia entre sus números y sus designaciones tecnológicas.

La lista numérica, inserta al final del catálogo, señala la correspondencia entre los números de piezas y los números de las láminas (excepto para los números normalizados de la tornillería).

MODO DE EMPLEO

Determinación del número de una pieza, conociendo su naturaleza :

1. Buscar en la LISTA de LÁMINAS, la lámina correspondiente al órgano o al elemento de órgano al que la pieza puede pertenecer.
2. Consultar el catálogo para encontrar la lámina, teniendo en cuenta, si es preciso, el número de fabricación del vehículo o del órgano interesado.
3. Una vez encontrada la lámina : buscar la pieza deseada : esta puede llevar uno o varios números; elegir el número conveniente, según la variante interesada, que va marcado con un signo convencional. Este número es el que debe indicarse en el pedido para obtener la pieza deseada.

Identificación mediante la ilustración, de una pieza, cuyo número se conoce :

1. Buscar en la lista numérica, en el número de pieza indicado, el número de las láminas correspondientes.
2. Consultar estas láminas.

INFORMACION GENERAL

PIEZAS DE ORIGEN « RENAULT »

Ponemos en conocimiento de nuestros clientes que en el mercado se venden ciertas imitaciones de nuestras piezas de repuesto.

A menudo, estas piezas están elaboradas con materias primas defectuosas o que han sufrido un tratamiento malo; además, dejan bastante que desear respecto a fabricación, terminado e intercambiabilidad.

Con el fin de poner en guardia a nuestros clientes, estampamos nuestro nombre o nuestra marca, en la mayor parte de nuestras piezas sueltas; las demás llevan una banda o un marchamo de garantía de nuestra marca.

Por lo tanto, rogamos a nuestros clientes que exijan nuestra marca en las piezas que les sean servidas por intermediarios, con objeto de evitar las decepciones que podrían derivarse del empleo de piezas sueltas que no proceden de nuestra fabricación.

El montaje en nuestros chasis de piezas que no son de origen, las rupturas o deformaciones de estas piezas de calidad inferior pueden ocasionar graves desperfectos a otras piezas de nuestros chasis y de nuestra fabricación; la garantía con que cubrimos a nuestros vehículos durante seis meses será retirada a cualquier vehículo en el que las piezas montadas por nosotros hayan sido reemplazadas por piezas de otra procedencia.

Todos nuestros Agentes se han comprometido por contrato a no vender más que piezas de origen y a poner en las facturas la mención : « Piezas de repuesto garantizadas de origen ». Por su interés y para su seguridad, exija esta indicación en las facturas de las piezas de repuesto que compre.

PEDIDOS

Todos los pedidos de piezas sueltas deben ser dirigidos exclusivamente :

- a nuestras Direcciones Regionales, o;
- a nuestros Centros de Paris, o;
- a una de nuestras Sucursales, o;
- a uno de nuestros Concesionarios, o;
- a uno de los Agentes de nuestra marca.

Pagos : Los precios facturados son siempre los vigentes en el momento de servir.

Nota. — 1. Ciertas piezas de carrocería solo se sirven si el estado de las herramientas necesarias permite su fabricación.

2. Al hacer pedidos de tela o simil-cuero, enviennos si es posible una muestra. La longitud deseada debe expresarse en decímetros. Nuestros servicios dependen de las posibilidades de aprovisionamiento. En ciertos casos, las fábricas de montaje del extranjero tapizan los vehículos por su cuenta y por ello poseen distinta gama de tapicerías.

INFORMACIÓN PARA USO DE NUESTRAS SUCURSALES, CONCESIONARIOS Y AGENTES

Devolución de piezas no conformes o envíos de piezas modelos

Las devoluciones y envíos de esta naturaleza deben ser hechos siempre a portes pagados :

AL ALMACEN DE PIEZAS DE REPUESTO DE LA R.N.U.R. QUE HA SERVIDO LA PIEZA

El paquete debe llevar en la etiqueta exterior el nombre y el domicilio del remitente. Otra etiqueta adherida a cada

pieza debe repetir el nombre y la dirección del remitente y recordar el número y el tipo del chasis correspondiente, la designación de la pieza y el número y fecha de la factura de Fábrica referente a la provisión de estas piezas. Incluir igualmente en el paquete la nota de entrega que estaba unida a la pieza procedente de Fábrica.

Todos los envíos deben ir acompañados de una carta explicando de forma detallada los motivos de la devolución.

LITIGIO

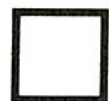

En caso de litigio, únicamente será competente el Tribunal del departamento del Sena, por acuerdo expreso, incluso en los casos de demanda incidente o de garantía.

Nuestras disposiciones, aceptos de pago o de expediciones, no suponen ni novación ni derogación de esta cláusula atributiva de jurisdicción.

Indicazioni essenziali

Per ottenere una corretta fornitura dei pezzi di ricambio.

Sul veicolo

- A** Il tipo del veicolo
- B** Il numero di fabbricazione del veicolo.
- C** Il numero di fabbricazione dell'organo di cui fa parte il pezzo desiderato.

nel catalogo

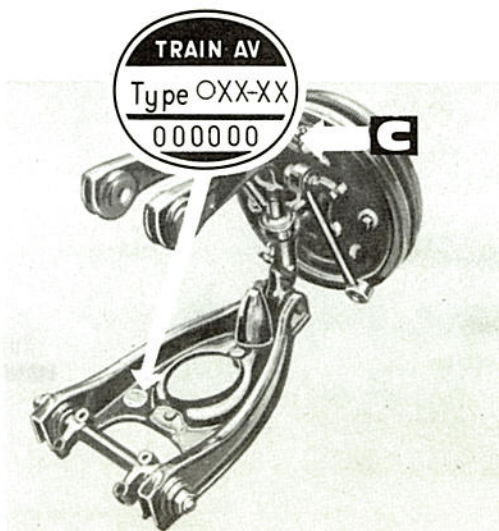

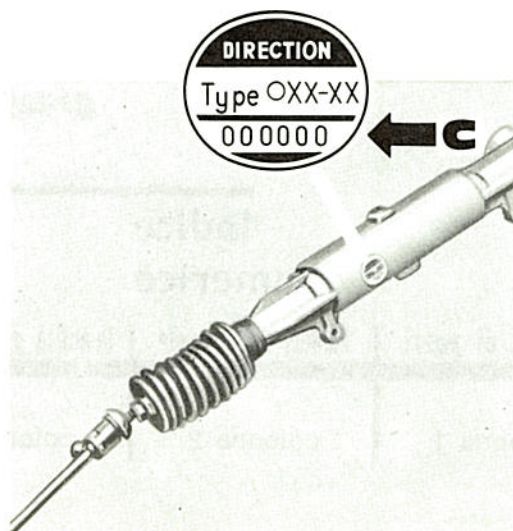

- Il numero del pezzo
- La quantità desiderata

NOTA

- 1° Per semplificare le verifiche, sarebbe desiderabile indicare ugualmente nelle ordinazioni :
 - il numero del catalogo,
 - il numero della tavola illustrata.

- 2° Se i numeri dell'organo, o del veicolo, sono distrutti, indicare il numero della piastra del costruttore, riportato sulla tessera di garanzia.

INTRODUZIONE

La presente pubblicazione costituisce il documento base che permette il collegamento degli utenti coi centri distributori delle parti di ricambio, Succursali e Commissionari. Essa contiene tutti i complessivi ed i pezzi staccati originali riconoscibili dal marchio e vendibili come ricambi, permette di identificarli facilmente tramite le sue illustrazioni.

Questi complessivi e questi pezzi sono ripartiti per tavole secondo l'organo o il gruppo al quale si riferiscono.

Ad ogni tavola è attribuita una **denominazione tecnologica** ed un **numero** di quattro cifre

di cui le due prime corrispondono ad un determinato codice organico.

Una TAVOLA comprende l'illustrazione dei pezzi e dei complessivi designati con uno o più numeri.

Un indice delle tavole, in testa al catalogo, dà la corrispondenza tra i loro numeri e le loro denominazioni tecnologiche.

Un indice numerico, in fin di catalogo, dà la corrispondenza tra i numeri dei pezzi ed i numeri delle tavole (esclusi i numeri di bulloneria normalizzata)

USO DEL CATALOGO

Determinazione del numero di un pezzo conoscendo la natura di questo :

1. Ricercare nell' INDICE DELLE TAVOLE la tavola corrispondente all' organo od al gruppo al quale questo pezzo si riferisce.
2. Consultare il catalogo per trovare questa tavola tenendo conto, se occorre, del numero di fabbricazione del veicolo o dell' organo interessato.
3. Determinata la tavola : ricercare il pezzo desiderato; questo pezzo può essere indicato con uno o più numeri : scegliere il numero adatto secondo la variante che è indicata da un segno convenzionale. Questo numero è quello che si deve trascrivere sul buono d'ordinazione per ottenere il pezzo desiderato.

Identificazione, tramite l'illustrazione di un pezzo di cui si conosce il numero :

1. Cercare nell' indice numerico, al dato numero di pezzo, il numero delle tavole corrispondenti.
2. Consultare queste tavole.

DISPOSIZIONI GENERALI

PARTI DI RICAMBIO ORIGINALI RENAULT

Desideriamo richiamare l'attenzione della nostra clientela per avvertirla che si vendono delle imitazioni dei nostri pezzi di ricambio.

Questi pezzi sono spesso costruiti con materie prime difettose o che hanno subito un trattamento inadeguato: inoltre, essi lasciano a desiderare come lavorazione e come intercambiabilità.

Al fine di mettere in guardia la nostra clientela contro le contraffazioni, punzoniamo col nostro nome o coi nostri marchi, la maggior parte dei nostri pezzi di ricambio; gli altri portano una fascia od un piombo di garanzia della nostra marca.

Preghiamo quindi i nostri clienti di esigere il nostro marchio di fabbrica sui pezzi che potrebbero esser loro consegnati da intermediari, al fine di evitare i malintesi che potrebbero risultare dall'impiego di parti di ricambio non provenienti dalla nostra fabbricazione.

Il montaggio sui nostri telai di parti di ricambio non originali, le rotture o deformazioni di queste parti di qualità inferiore possono provocare gravi danni ad altre parti dei telai di nostra fabbricazione; la garanzia da noi concessa ai nostri veicoli per un periodo di sei mesi sarà revocata a quel veicolo sul quale pezzi da noi montati siano stati sostituiti con pezzi non originali.

Tutti i nostri organizzati hanno assunto per contratto, l'impegno di vendere solo parti di ricambio originali e di riportare sulle fatture la menzione: « Parti di ricambio garantite originali ». Nel vostro interesse e per la vostra sicurezza, esigete questa indicazione sulle fatture delle parti di ricambio che acquistate.

ORDINAZIONI

Ogni ordinazione di parti di ricambio deve essere esclusivamente indirizzata:

- Sia alle nostre Direzioni regionali;
- Sia ai nostri Centri di Parigi;
- Sia ad una delle nostre Succursali;
- Sia ancora ad uno dei nostri Commissionari, o ad uno dei nostri organizzati.

Pagamento: i prezzi fatturati sono sempre quelli in vigore alla data della consegna.

Nota. — 1. Certe parti staccate di carrozzeria potranno essere fornite solamente quando lo stato dell'attrezzatura ne permette la fabbricazione.

2. Allegare possibilmente all'ordine un campione di tessuti e simili. La lunghezza desiderata deve essere calcolata in decimetri. La fornitura conforme viene assicurata in base alle possibilità di approvvigionamento.

DISPOSIZIONI AD USO DELLE NOSTRE SUCCURSALI, COMMISSIONARI ED ORGANIZZATI

Rinvio dei pezzi non conformi o invio di pezzi modelli.

I rinvii od invii di questo genere devono sempre essere fatti franco di porto:

AL MAGAZZINO DELLE PARTI DI RICAMBIO DELLA R.N.U.R. CHE HA CONSEGNATO IL PEZZO

Il pacco deve portare sull'etichetta esterna, il nome e l'indirizzo del mittente. Un cartellino attaccato ad ogni pezzo deve

ripetere il nome e l'indirizzo del mittente e ricordare il numero ed il tipo del telaio corrispondente la denominazione del pezzo ed il numero e data della fattura dello Stabilimento relativi alla fornitura di questi pezzi. Includere pure nel pacco il buono di consegna che era allegato al pezzo ricevuto dallo Stabilimento.

Ogni invio deve costituire l'oggetto di una lettera esplicativa indicante in modo dettagliato i motivi del rinvio.

CONTESTAZIONE

In caso di contestazione, il « Tribunal de la Seine » sarà il solo competente, per espressa convenzione, anche in caso di richieste per inconvenienti o riconosci-

menti in garanzia. Le nostre disposizioni, accettazioni di pagamento o spedizioni, non costituiscono innovazioni, né deroghe a questa clausola attributiva di giurisdizione.

Beslist noodzakelijke inlichtingen

Ter verkrijging van het juiste onderdeel.

Op de wagen

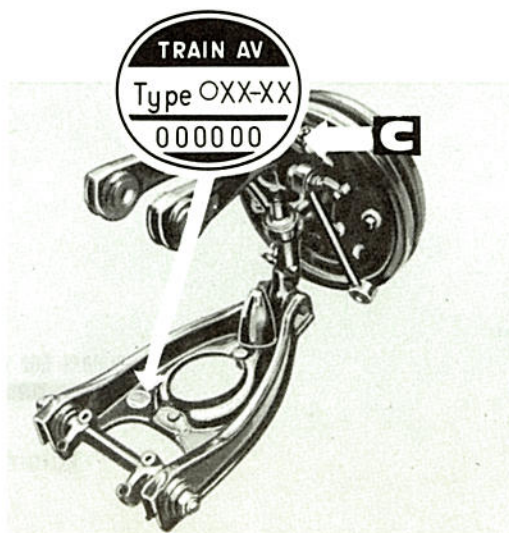

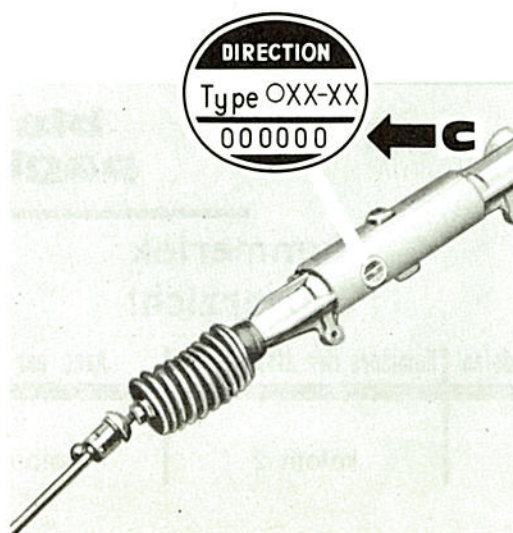

- A** Het wagentype
- B** Het fabricagenummer
- C** Het fabricagenummer van het orgaan, waaronder het bestelde onderdeel ressorteert.

In het onderdelenboek

- Het onderdeelnummer
- De verlangde hoeveelheid

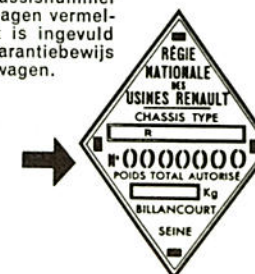

ORIGINELE ONDERDELEN

OPMERKING

- 1^e Om eventuele contrôles te vergemakkelijken is het raadzaam bij de bestellingen eveneens te vermelden :
 - het nummer van het onderdelenboek
 - het paginanummer van de betreffende afbeelding.
- 2^e Indien de nummers van het orgaan of van de wagen niet meer zijn af te lezen, moet U het chassisnummer van de wagen vermelden. Dit is ingevuld op het garantiebewijs van de wagen.

VOORWOORD

Door middel van dit boekwerk is het voor de gebruiker mogelijk bij het onderdelenmagazijn van de importeur of agent de benodigde onderdelen te bestellen. Het bevat alle origineel gemonteerde Renault onderdelen, welke, voorzien van het stempel, verkrijgbaar zijn. Men kan deze onderdelen met behulp van de afbeeldingen gemakkelijk herkennen.

De groepen en onderdelen zijn in afbeeldingen weergegeven volgens een deel van-of het gehele orgaan, waaronder zij ressorteren.

Iedere plaat is voorzien van een technische omschrijving en een nummer van vier cijfers,

waarvan de twee eerste cijfers de groepcode van het betreffende orgaan aangeven.

Elke PLAAT bevat een afbeelding van de onderdelen en groepen, voorzien van één of meerdere nummers.

Een overzicht van de afbeeldingen, voorin dit onderdelenboek, geeft het verband aan tussen de nummers en de technische omschrijving hiervan.

Een numeriek overzicht, achterin dit onderdelenboek, geeft het verband aan tussen de onderdeel en paginanummers (uitgezonderd de nummers van de genormaliseerde bouten, tapeinden, etc.).

GEBRUIKSAANWIJZING

Het vaststellen van een onderdeelnummer, waarvan men de herkomst weet :

1. Zoek in het OVERZICHT der AFBEELDINGEN de betreffende pagina op van het deel van-of het gehele orgaan, waarop het onderdeel betrekking heeft.
2. Sla de betreffende pagina op voor de afbeelding, waarbij men eventueel rekening moet houden met het fabricagenummer van de wagen of het orgaan.
3. De afbeelding ligt voor U open : zoek het gewenste onderdeel op. Dit onderdeel kan voorzien zijn van één of meerdere nummers, welke betrekking hebben op de typeuitvoering van de wagen en dienovereenkomstig aangeduid zijn. Het hiervan gewenste onderdeelnummer moet op de bestelbon ingevuld worden, teneinde het juiste onderdeel te ontvangen.

Het terugvinden van de afbeelding, van een onderdeel, waarvan het nummer bekend is :

1. Zoek in het numeriek overzicht bij het onderdeelnummer het betreffende paginanummer van de afbeelding op.
2. Sla deze bladzijde open en zoek het onderdeel op.

ALGEMENE RICHTLIJNEN

Wij waarschuwen hierbij onze klanten, dat er imitatie-onderdelen in omloop zijn.

Deze onderdelen worden dikwijls vervaardigd uit grondstoffen, welke verborgen gebreken kunnen vertonen of een slechte afwerking hebben ondergaan. Bovendien laten zij veel te wensen over voor wat de afwerking en de onderlinge verwisselbaarheid betreft.

Teneinde onze klanten hiervoor te vrijwaren, stempelen wij onze naam of merk, in het merendeel van onze onderdelen, terwijl de overige onderdelen verzegeld worden.

Wij verzoeken onze klanten met nadruk te eisen, dat de via de agent aan hen geleverde onderdelen van ons eigen fabrikaat zijn, teneinde teleurstellingen te voorkomen, welke het resultaat zouden kunnen zijn van het gebruik van onderdelen anders dan van ons fabrikaat.

Het monteren van niet originele onderdelen op onze wagens kan door de mindere kwaliteit de oorzaak zijn van breuken en vervormingen, waardoor er ernstige afbreuk gedaan kan worden aan andere delen van ons fabrikaat. De garantie, welke gedurende 6 maanden op onze wagens van toepassing is, vervalt bij montage van onderdelen anders dan van ons fabrikaat.

Al onze agenten zijn contractueel verplicht uitsluitend originele onderdelen te verkopen en op hun facturen de aanduiding « Originele Renault Onderdelen » te vermelden. In Uw eigen belang en veiligheid moet U erop aandringen, dat deze vermelding op de factuur van de door U bestelde onderdelen voorkomt.

BESTELLINGEN

Alle bestellingen voor onderdelen moeten uitsluitend gericht worden tot :

- of onze Directions régionales;
- of onze hoofdmagazijnen in Parijs;
- of één van onze Succursales;
- of tot één van onze agenten of B-agenten.

Betalingen : De gefactureerde prijzen zijn altijd die, welke op het ogenblik van aflevering van kracht zijn.

Opmerking. — 1. Bepaalde onderdelen van het plaatwerk worden slechts geleverd voor zover dit door ons fabricageproces mogelijk is.

2. Wanneer U bestellingen voor laken of kunstleder opgeeft, moet U zo mogelijk hiervan een monster bijvoegen. De gewenste lengte moet in decimeters worden opgegeven. De toezending hiervan wordt gegarandeerd voor zover de leveringsmogelijkheden strekken. In bepaalde gevallen verzorgen de assemblagefabrieken zelf de bekledingen van de wagens, waardoor er dus afwijkingen kunnen voorkomen.

GEBRUIKSAANWIJZINGEN VOOR ONZE SUCCURSALES, AGENTEN EN B-AGENTEN

Het terugsturen van niet juiste onderdelen of het sturen van onderdelen voor model.

Het terugzenden of versturen hiervan moet altijd franco geschieden en gericht worden aan :

HET RENAULT - ONDERDELENMAGAZIJN, WELKE HET ONDERDEEL HEEFT AFGELEVERD

De verpakking moet aan de buitenzijde voorzien zijn van een etiket met de naam en het adres van de afzender. Aan ieder onderdeel moet een rode label bevestigd zijn, waarop de naam en het adres van de

afzender voorkomt, alsmede het fabricage-nummer van de betreffende wagen, de omschrijving van het onderdeel en het factuurnummer met datum van het betreffende onderdeel.

Vanzelfsprekend moet in de verpakking de afleveringsbon van het betreffende onderdeel bijgevoegd worden.

Bij iedere zending moet een begeleidende brief aanwezig zijn, waarin de redenen van terugzending uitvoerig omschreven worden.

CONTESTATIE

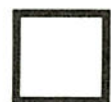

In alle gevallen van contestatie, betreffende de uitvoering van een order of de toepassing van garantie en de overige bovengestelde voorwaarden, zullen uitsluitend de Tribunalen van de Seine hetzij de Kantonnier van Boulogne-Billancourt competent zijn om van het geschil kennis te nemen, ongeacht of het een vordering betreft uit hoofde van een burgerlijke of handelsovereenkomst of een vordering, gegrond op een quasi delict als bedoeld in de artikelen 1382 e.v. Code Civil. In spoedeisende gevallen is de rechter in

référé van het Tribunal Civil of het Tribunal de Commerce bij uitsluiting competent. De wijze van verzending of betaling, onze disposities of acceptering van betalingsvoorwaarden of verzending onder rembours, noch de plaats van levering zullen derogeren aan de bovengestelde competentieregeling. Aan ons is echter het recht voorbehouden om in afwijking van het bovengestelde onze agenten, kopers en anderen aan te spreken voor de Rechtelijke Instantie, die in die gevallen volgens het gemeene recht bevoegd is.

Erforderliga uppgifter

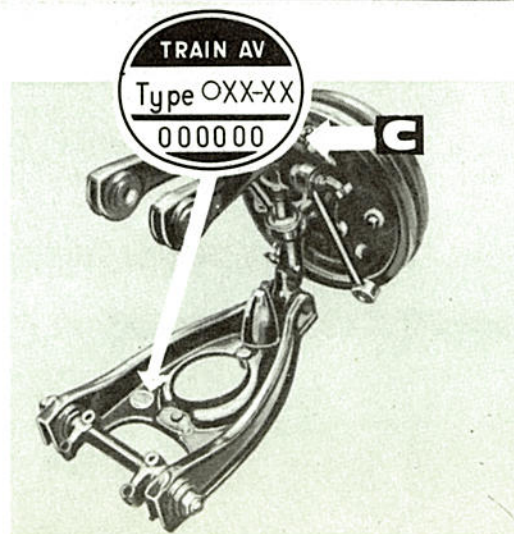

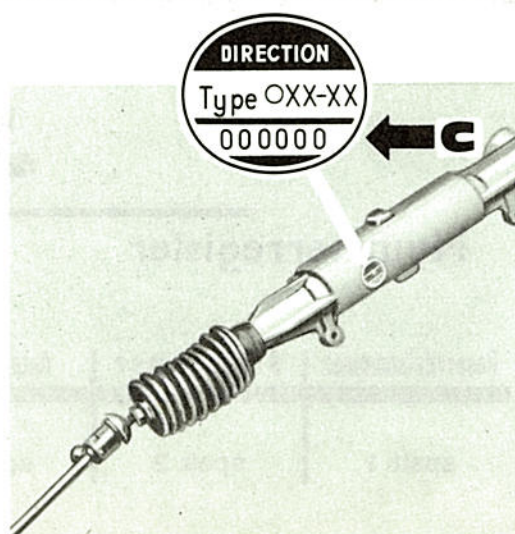

För att erhålla en korrekt leverans av reservdelar.

på bilen

- A** Vagn typ
- B** Fabriktionsnummer
- C** Numret å motor eller annat organ till vilket den beställda delen hör.

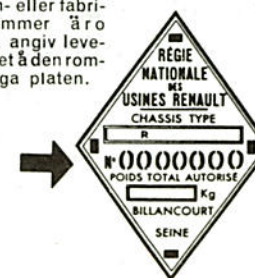

i katalogen

- Delens nummer
- Önskat antal

ANMÄRKNING

1. För att förenkla orderkontrollen är det önskvärt att i ordena ange :
 - katalognummer.
 - plansnummer.
2. Om organ- eller fabriktionsnummer äro förstörda, angiv leveransnumret å den romboidformiga platen.

INLEDNING

Föreliggande katalog är avsedd att utgöra grundvalen för förbindelserna mellan distributionscentralerna för reservdelar, filialerna och återförsäljarna. Den innehåller en förteckning över samtliga enheter och reservdelar av originaltillverkning, igenkännliga på märket. Den möjliggör en lätt identifiering av de olika reservdelarna med ledning av bilderna.

De olika enheterna och reservdelarna återges på **bilderna** i anslutning till de huvudenheter i vilka de ingår.

På varje **bild** finns en teknisk benämning och

ett fyrsiffrigt nummer, där de båda första siffrorna anger vilken huvudenhet det gäller.

På varje **BILD** avbildas de detaljer och enheter som har samma kodnummer.

Ett **bildregister** i början av katalogen anger de benämningar som motsvarar varje kodnummer.

Ett **nummerregister** i slutet av katalogen anger reservdelsnumren och deras motsvarande bildnummer (med undantag för numren för standardbultar).

ANVÄNDNING

Fastställande av numret,

på en reservdel tillgås på följande sätt :

1. Uppsök i bildregistret numret på den bild som upptar den huvudenhet, i vilken den aktuella reservdelen ingår.
2. Slå upp denna bild. Tillverkningsnumret på bilen eller på den aktuella huvudenheten skall härvid helst vara känt.
3. Fastställ med ledning av bilden : vilken den önskade detaljen är. Den kan betecknas med ett eller flera nummer. Välj det nummer som motsvarar det utförande som önskas i det speciella fallet. Det är detta nummer som skall användas vid beställningen.

Identifierande med ledning av en bild,

av en detalj vars nummerbeteckning är känd :

1. Sök med ledning av nummerregistret upp numret på den bild som upptar den aktuella detaljen.
2. Slå upp denna bild.

ALLMANNA UPPLYSNINGAR

ORIGINALDELAR RENAULT

Vi måste varna våra kunder mot försäljning av efterbildningar av våra reservdelar.

Dylika detaljer är ofta utförda av bristfälligt eller illa bearbetat råmaterial samt dessutom otillfredsställande ur tillverknings- och utbytbarhetssynpunkt.

För att våra kunder skall kunna vara på sin vakt mot efterapningar stämplat vi med vårt namn eller med de flesta av våra reservdelar, medan övriga detaljer är försedda med garantiband eller plomberade med vårt märke.

Vi ber alltså våra kunder att alltid fordra, att vårt fabriksmärke förekommer på reservdelar, som de erhåller genom mellanhänder, för att slippa missträknningar i samband med reservdelar, som ej härrör från vår tillverkning.

Vid montering på våra chassier av icke originalreservdelar kan brott på dylika kvalitativt mindervärdiga detaljer eller deformation av desamma leda till förstörelse på andra chassidetalljer ur vår egen tillverkning. Den **6 månaders garanti**, som vi lämnar för våra vagnar, upphör att gälla för samtliga vagnar, på vilka av oss monterade delar ersatts med detaljer av annat ursprung.

Alla våra återförsäljare har kontraktssenligt förbundit sig att endast sälja Renault originalreservdelar samt på fakturor ange beteckningen : « Reservdelar med ursprunggaranti ».

Ni bör i Ert eget intresse för säkerhets skull alltid fordra denna uppgift på fakturor över av Er införskaffade reservdelar.

BESTÄLLNINGAR

Alla reservdelsbeställningar bör endast insändas till :

- något av våra lokalkontor;
- någon av våra i Paris belagna centraler;
- någon av våra filialer;
- någon av våra generalagenter eller återförsäljare.

Fakturorna utställs alltid efter de på leveransdagen gällande priserna.

Anm. — 1. Vissa platdetaljer levereras endast i det tillstånd som den produktionsmässiga tillverkningen tillåter.

2. Om möjligt bifoga med ordern ett prov ä tyg eller konstläder. Den önskade längden skall uttryckas i decimeter. Exakt överensstämmelse med original et kan icke garanteras.

UPPLYSNINGAR TILL LEDNING FÖR VÅRA FILIALER, GENERALAGENTER OCH ÅTERFÖRSÄLJARE

Returer av felaktiga detaljer och sändning av porver

Returer och sändningar av detta slag bör ske fritt.

DET RESERVEDELSLAGER FÖR R.N.U.R.,
SOM TILLHANDAHÅLLIT
DEN FELAKTIGA DETALJEN

Försändelsen bör vara försedd med etikett innehållande uppgift om avsändarens namn och adress. Varje returnerad detalj

skall vara försedd med en lapp, som även anger avsändarens namn och adress, nummer och typ för motsvarande chassi, reservdelens benämning samt numret på fabriken motsvarande faktura för leverans av ifrågavarande detaljer. Till försändelsen bör även bifogas följesedel för den från fabriken erhållna detaljen.

Med Varje försändelse bör även följa ett förklarande brev, som i detalj anger skälen för returen.

TVISTER

Vid tvister är enligt uttrycklig överenskommelse domstolen i Seine enda behöriga forum i garantifrågor och härmed sammanhängande spörsmål. Varken våra

åtgärder, vart godkännande av förfaringssättet eller våra varuförsändelser kan medföra ändringar i eller avsteg från denna juridiska klausul.
